

The Weekly HackHero Hint

1. **Strong Passwords:** Create strong, unique passwords for each online account.
2. **Two-Factor Authentication:** Enable two-factor authentication for all your accounts.
3. **Share Carefully:** Be cautious about what personal information you share online.
4. **Safe Browsing:** Use secure, trusted websites when browsing or shopping online.
5. **Social Media Privacy:** Review and update your social media privacy settings regularly.
6. **Secured Wi-Fi:** Connect to secure, password-protected Wi-Fi networks.
7. **VPN Usage:** Use a VPN like NordVPN for added security when needed.
8. **Email Caution:** Be cautious of unsolicited emails and do not click on unknown links.
9. **Private Browsing:** Use the private browsing feature when necessary.
10. **Data Sharing Consent:** Understand what data you're consenting to share when using apps or services.
11. **Anti-Virus Software:** Ensure that you have anti-virus software installed and updated.
12. **Log Out:** Always log out of accounts when done, especially on shared devices.
13. **Personal Info in Emails:** Avoid sending sensitive personal information over email.
14. **Digital Footprint:** Be aware of your digital footprint and how your online activities can be traced.
